

As we are closing out Hispanic Heritage month celebrations, we wanted to take a moment to highlight these 21 Heroes & Heroines in Early Childhood Education (ECE), one last time. Each one of these remarkable individuals has demonstrated unwavering dedication and commitment to making positive impacts in the ECE field, creating lasting changes for children, families, and the Latinx communities they serve. As an organization that tirelessly strives towards removing barriers within Latine' communities and advocating for the well-being of children and youth, it is with immense honor that we delve into each hero's story. The passion and drive exhibited by this diverse group resonates deeply within us as we read about their transformative influences. Although there remain countless Latin leaders amongst us who continue to make profound differences every day, regrettably not all could be recognized during this month-long celebration. Nevertheless, let us extend our heartfelt gratitude to each unsung hero for their tireless efforts in uplifting our communities and steadfastly supporting our most vulnerable populations- Juntos podemos lograr lo imposible!
